Author index of volume 74

Abbring, J.H., Stayers versus defecting movers: a note on the identification of defective duration models 327
Arrondel, L., Risk management and wealth accumulation behavior in France 187

Bahmani-Oskooee, M. and I. Miteza, Do nominal devaluations lead to real devaluations in LDCs? 385
Balcombe, K. and R. Tiffin, Fully modified estimation with cross-equation restrictions 257
Barucci, E. and R. Renò, On measuring volatility of diffusion processes with high frequency data 371
Bassanini, A. and S. Scarpetta, Does human capital matter for growth in OECD countries? A pooled mean-group approach 399
Basu, K., A note on multiple general equilibria with child labor 301
Berkowitz, D. and J. Holland, Does privatization enhance or deter small enterprise formation? 53
Berry, S. and A. Pakes, Additional information for: "Comments on "Alternative models of demand for automobiles" by Charlotte Wojcik" 43
Brown Kruse, J. and M.A. Thompson, A comparison of salient rewards in experiments: money and class points 113
Buettner, T., Fiscal federalism and interstate risk sharing: empirical evidence from Germany 195

Calmette, M.-F. and M. Kilkenny, International charity under asymmetric information 107
Chade, H. and R. Silvers, Informed principal, moral hazard, and the value of a more informative technology 291
Chatelain, J.-B., Mark-up and capital structure of the firm facing uncertainty 99
Cheng, H., Cournot outcome and optimal collusion: an example 1
Cho, M.-h., *see* M.-j. Lee 251
Choudhry, T. and K.B. Luintel, The long-run behaviour of the real exchange rate: evidence from colonial Pennsylvania 25
Chow, W.W., *see* M.K. Fung 353
Ciarreta, A. and C.-K. Kuo, A supergame-theoretic model with consumer loyalty 211

Danziger, L. and H.W. Ursprung, Risk aversion and social mobility: the implausibility of order-preserving income redistributions 9
Davies, L., *see* W. Kramer 313
Davis, G.C. and S.-Y. Kim, Measuring instrument relevance in the single endogenous regressor–multiple instrument case: a simplifying procedure 321
Deidda, L. and B. Fattouh, Non-linearity between finance and growth 339
Dubey, P. and C.-w. Wu, When less competition induces more product innovation 309

Fattouh, B., *see* L. Deidda 339
Fernández, A.I., J.M. Rodríguez-Póo and S. Sperlich, A note on the parametric three step estimator in structural labor supply models 31
Fountas, S., The relationship between inflation and inflation uncertainty in the UK: 1885–1998 77
Fung, M.K. and W.W. Chow, Measuring the intensity of knowledge flow with patent statistics 353

Gaston Gelos, R. and A. Isgut, Irreversibilities in fixed capital adjustment 85
Genius, M. and E. Strazzera, A note about model selection and tests for non-nested contingent valuation models 363
Gil-Alana, L.A., Seasonal long memory in the aggregate output 333
Glachant, J. and C. Vellutini, Quantifying the relationship between wealth distribution and aggregate growth in the Ramsey model 237
Güth, W., M. Kocher and M. Sutter, Experimental 'beauty contests' with homogeneous and heterogeneous players and with interior and boundary equilibria 219

Hamermesh, D.S., How 'grievous' was the biblical famine? 379

Elsevier Science B.V.
PII: S0165-1765(02)00017-4

Han, C. and P. Schmidt, The asymptotic distribution of the instrumental variable estimators when the instruments are not correlated with the regressors 61
Hoernig, S.H., Mixed Bertrand equilibria under decreasing returns to scale: an embarrassment of riches 359
Holland, J., *see* D. Berkowitz 53

Iglesias, E.M. and G.D.A. Phillips, Reconsidering the gains in efficiency from ML estimation versus OLS in ARCH models 21
Inderst, R., Contract design and bargaining power 171
Isgut, A., *see* R. Gaston Gelos 85

Jacobs, B. and R. Nahuis, A general purpose technology explains the Solow paradox and wage inequality 243

Karagiannis, G. and G.J. Mergos, Estimating theoretically consistent demand systems using cointegration techniques with application to Greek food data 137
Kilkenny, M., *see* M.-F. Calmette 107
Kim, S.-Y., *see* G.C. Davis 321
Kocher, M., *see* W. Güth 219
Kramer, W. and L. Davies, Testing for unit roots in the context of misspecified logarithmic random walks 313
Kreickemeier, U., Corrigendum to "The shadow price of foreign exchange with minimum wages" 133
Kuo, C.-K., *see* A. Ciarreta 211

Lanfranchi, J., H. Ohlsson and A. Skalli, Compensating wage differentials and shift work preferences 393
Lee, M.-j. and M.-h. Cho, Validity of LSE for trimmed and differenced panel data due to absorbing attrition 251
Li, C.-W., Growth and scale effects: the role of knowledge spillovers 177
Luintel, K.B., *see* T. Choudhry 25

Madsen, J.B., The causality between investment and economic growth 157
McDonald, S. and J. Roberts, Growth and multiple forms of human capital in an augmented Solow model: a panel data investigation 271
Meng, Q., Monetary policy and multiple equilibria in a cash-in-advance economy 165
Mergos, G.J., *see* G. Karagiannis 137
Miteza, I., *see* M. Bahmani-Oskooee 385
Mitusch, K., Dept contracts, banks, and aggregate liquidity 145

Nahuis, R., *see* B. Jacobs 243
Neilson, W.S. and H. Winter, A verification of the expected utility calibration theorem 347
Núñez, J., A model of self-regulation 91

O'Connell, J.F. and G.M. Perkins, In search of the unknown 407
Ohlsson, H., *see* J. Lanfranchi 393

Pakes, A., *see* S. Berry 43
Pakes, A., *see* S. Berry 43
Perkins, G.M., *see* J.F. O'Connell 407
Phillips, G.D.A., *see* E.M. Iglesias 21

Category index of volume 74

A General Economics and Teaching

A. Watts, Non-myopic formation of circle networks (A14)277

C Mathematical and Quantitative Methods

C. Han and P. Schmidt, The asymptotic distribution of the instrumental variable estimators when the instruments are not correlated with the regressors (C1) 61
S. Berry and A. Pakes, Additional information for: "Comments on "Alternative models of demand for automobiles" by Charlotte Wojcik" (C5) 43
W. Kramer and L. Davies, Testing for unit roots in the context of misspecified logarithmic random walks (C12)313
E.M. Iglesias and G.D.A. Phillips, Reconsidering the gains in efficiency from ML estimation versus OLS in ARCH models (C13) 21
K. Balcombe and R. Tiffin, Fully modified estimation with cross-equation restrictions (C13)257
M. Genius and E. Strazzera, A note about model selection and tests for non-nested contingent valuation models (C15)363
E. Barucci and R. Renò, On measuring volatility of diffusion processes with high frequency data (C15)371
J.F. O'Connell and G.M. Perkins, In search of the unknown (C21)407
S. Fountas, The relationship between inflation and inflation uncertainty in the UK: 1885–1998 (C22) 77
L.A. Gil-Alana, Seasonal long memory in the aggregate output (C22)333
M.-j. Lee and M.-h. Cho, Validity of LSE for trimmed and differenced panel data due to absorbing attrition (C24)251
G.C. Davis and S.-Y. Kim, Measuring instrument relevance in the single endogenous regressor–multiple instrument case: a simplifying procedure (C30)321
A.I. Fernández, J.M. Rodríguez-Póo and S. Sperlich, A note on the parametric three step estimator in structural labor supply models (C31) 31
J.H. Abbring, Stayers versus defecting movers: a note on the identification of defective duration models (C41)327
W.J. Reed, The Pareto, Zipf and other power laws (C49) 15
P. Dubey and C.-w. Wu, When less competition induces more product innovation (C70)309
T. Sekiguchi, A negative result in finitely repeated games with product monitoring (C72) 67
A. Ciarreta and C.-K. Kuo, A supergame-theoretic model with consumer loyalty (C72)211
W. Güth, M. Kocher and M. Sutter, Experimental 'beauty contests' with homogeneous and heterogeneous players and with interior and boundary equilibria (C72)219
D. Spector, Failure of communication despite close preferences (C72)283
S.H. Hoernig, Mixed Bertrand equilibria under decreasing returns to scale: an embarrassment of riches (C72)359
H. Cheng, Cournot outcome and optimal collusion: an example (C73) 1
J. Brown Kruse and M.A. Thompson, A comparison of salient rewards in experiments: money and class points (C91)113

D Microeconomics

G. Karagiannis and G.J. Mergos, Estimating theoretically consistent demand systems using cointegration techniques with application to Greek food data (D12)137
L. Arrondel, Risk management and wealth accumulation behavior in France (D12)187

Elsevier Science B.V.
PII: S0165-1765(02)00018-6

L. Danziger and H.W. Ursprung, Risk aversion and social mobility: the implausibility of order-preserving income redistributions (D31) 9
J.-B. Chatelain, Mark-up and capital structure of the firm facing uncertainty (D42) 99
A. Wagener, Prudence and risk vulnerability in two-moment decision models (D81)229
W.S. Neilson and H. Winter, A verification of the expected utility calibration theorem (D81)347
M.-F. Calmette and M. Kilkenny, International charity under asymmetric information (D82)107
R. Inderst, Contract design and bargaining power (D82)171
H. Chade and R. Silvers, Informed principal, moral hazard, and the value of a more informative technology (D82)291
J. Glachant and C. Vellutini, Quantifying the relationship between wealth distribution and aggregate growth in the Ramsey model (D90)237
X. Xu, The dynamic-optimizing approach to import demand: a structural model (D90)265
D.S. Hamermesh, How 'grievous' was the biblical famine? (D91)379

E Macroeconomics and Monetary Economics

J.B. Madsen, The causality between investment and economic growth (E13)157
R. Gaston Gelos and A. Isgut, Irreversibilities in fixed capital adjustment. Evidence from Mexican and Colombian plants (E22) 85
Q. Meng, Monetary policy and multiple equilibria in a cash-in-advance economy (E31)165
L. Deidda and B. Fattouh, Non-linearity between finance and growth (E44)339
L. Sarno, The behavior of US public debt: a nonlinear perspective (E62)119

F International Economics

N. Schmitt and Z. Yu, Economies of scale and the volume of intra-industry trade (F10)127
M. Bahmani-Oskooee and I. Miteza, Do nominal devaluations lead to real devaluations in LDCs? (F31)385
T. Choudhry and K.B. Luintel, The long-run behaviour of the real exchange rate: evidence from colonial Pennsylvania (F40) 25

G Financial Economics

K. Mitusch, Debt contracts, banks, and aggregate liquidity (G21)145

H Public Economics

T. Sandler and S. Vicary, Weakest-link public goods: giving in-kind or transferring money in a sequential game (H41) 71
T. Buettner, Fiscal federalism and interstate risk sharing: empirical evidence from Germany (H77)195

J Labor and Demographic Economics

K. Basu, A note on multiple general equilibria with child labor (J20)301
J. Lanfranchi, H. Ohlsson and A. Skalli, Compensating wage differentials and shift work preferences (J31)393
L. Wong, Specific-capital in equilibrium search models (J64)203

L Industrial Organization

J. Núñez, A model of self-regulation (L51) 91

O Economic Development, Technological Change, and Growth

P.E. Robertson, Demographic shocks and human capital accumulation in the Uzawa–Lucas model (O00)151

A. Bassanini and S. Scarpetta, Does human capital matter for growth in OECD countries? A pooled mean-group approach (O11)399
B. Jacobs and R. Nahuis, A general purpose technology explains the Solow paradox and wage inequality (O15)243
C.-W. Li, Growth and scale effects: the role of knowledge spillovers (O30)177
S. McDonald and J. Roberts, Growth and multiple forms of human capital in an augmented Solow model: a panel data investigation (O47)271
M.K. Fung and W.W. Chow, Measuring the intensity of knowledge flow with patent statistics (O310)353

P Economic Systems

D. Berkowitz and J. Holland, Does privatization enhance or deter small enterprise formation? (P2) 53
